PROFESSIONAL EXPERIENCE

Full Stack Developer (Project) | 2025

Time Management System

- Designed and built a full-stack Laravel application for task scheduling and time tracking
- Implemented user authentication, dashboard, and RESTful API routes using Laravel MVC
- Used MySQL for persistent storage and integrated clean UI with Blade templating

Mobile Developer (Project) | 2024

Time Management Android App

- Built a task management app with reminders and visual progress tracking using Java and Android Studio
- Managed local data persistence and optimized activity lifecycle for better performance and user experience
- Integrated custom notifications and alarms to enhance user engagement and ensure timely task completion

Frontend Developer (Project) | 2023

Cryptocurrency Website

- Developed a responsive cryptocurrency information site using HTML, CSS, JavaScript, and Bootstrap
- Focused on delivering clean UI/UX with modern responsive design principles and cross-device compatibility
- Implemented interactive elements such as real-time price updates and hover effects to enhance user interaction and experience
